PLACE IN THE BOARD OF CONTROL. The so-called Monmouth deal is not yet an actual fact, though it is as nearly settled as a deal could be. The money paid for the property is in the bank, deposited by A. F. Walcott, and all that is to be done is a searching of the titles. By Tuesday the sale will be consummated, and the property, which is still in the hands of the old directors, will be transferred to the new owners. The public is obliged to believe that James R. Keene and Jacob Ruppert are in earnest when they declare that they have no interest in Monmouth and have bought no stock, and it remains in the dark concerning the associates of Mr. Walcott. A close triend of the latter said yesterday, when asked who was behind Mr. Walcott:

"He doesn't need anybody behind him. He's a rich man and can afford to take the whole thing on his own shoulders. He made nearly \$1,000,000 out of the Chicago elevated road. He is no pettifogger, this Wal-cott. He plays for big game. You may depend on it that he needs no support in anything he undertakes in

"But Mr. Cassatt owns no horses; he has given up racing."

Not entirely. If you look carefully through the nominations for this year you will find a number of two-year-olds entered in his name. He has not yet quit the turf, and we do not intend to lose him if we

It was the best contest seen in the Cherry Diamond clubhouse in many a day. Gorman was to have fought Dunn but he did not appear, Newmeyer taking Gorman's place at a moment's notice. The men sparred cautiously in the first round, but in the second the fighting was of the cyclonic order. Newmeyer went to the floor early in the round but recovered and had Dunn treading in "Queer-at" when time was called. Both men were too tired to do much fighting in the next round. THE BEHRING SEA QUESTION.

Washington, April 2.-Secretary Blaine has so far ecovered from his recent illness as to be back at his desk at the State Department to-day. This is the first time in nearly three weeks that he has been at the Department. Within that period the crisis in the Debring Sea matter was reached and passed, but he was kept informed of the progress of the negotiations, and it is understood is now devoting a portion of his time to assisting the President in his correspondence and conferences with the British Minis looking to an early renewal of the modus vivendi. It is probable that there will be no formal reply to Lord Sallsbury's note of March 25. It is the general understanding that this Government will accept the proposition in that note, which provides for a susproposition in that note, which provides for a sus-ponsion of pelagic sealing, with provisions for indem-nities. Beyond this there is nothing new in the sit-nation to-day, especially as it is understood that the Cabinet took no definite action in the matter at its meeting yesterday.

There were some twenty-five men chieffy from the First Ward, present, Samuel B. Duryen was chosen to preside, and A. N. Lewis for secretary. Mr. Duryen spoke of the object of the meeting, and Franklin Woodruff set forth the need o an organization which would promote the of the party and aid in getting rid of factionalism. A. N. Van Cott said that the first duty must be to bring in the young men. There was need of an organization to utilize the forces in the Republican party to the best advantage. Joshua M. George Brainard said that the outlook for the Republican party in the coming campaign was ellent in both the State and the Nation, but every

Republican must do his duty. The Foster people charged intimidation and the wholesale voting of unnaturalized Italians in the Sixth Ward, frand by the Commissioners in not counting Foster votes in the Eighth Ward, and wholesale stuffing of boxes in the Ninth Ward. A good deal of testimony was taken on both sides, and examinations and accuments were hard and bitter. McEnery's majority of the votes as counted is about 1.300. If the three wards, or the majority of their votes, are thrown out, Foster will have a majority.
